

22 January 2024

Dear Annalize du Toit Optometrists,

We would like to thank you for supporting the Collection Tin Project & for the wonderful contribution of **R1190.00**.

As a registered non-profit organisation, the Association relies on the efforts and generosity of the public to be able to continue offering life-changing services to persons with visual impairment, physical disabilities and children on the autism spectrum.

Your support enables us to train new generations of Assistance Dogs and offer skills training to the visually impaired through our Orientation & Mobility Support Services.

We celebrated our 70th birthday in 2023. This special milestone serves as a reminder of what the Association has done over the past 70 years, how many lives were changed, but also inspires us to do even more!

Kind Regards,

Melanie Nel

Marketing Coordinator
